10	HS782	HEX HEAD BOLT 3/8" x 3 1/2"	1
11	HN1230	LOCKNUT 3/8"-16	1
12	VBWINCH	WINCH ASSEMBLY	1

SAFE USE AND HANDLING

- 1) Use protective padding around the standards when using this volleyball system.
- 2) Before every use, check all fasteners, clips and straps to look for worn or damaged parts.
- 3) These uprights are very heavy and we recommend that they be moved only with two qualified adults.
- 4) It is not necessary to apply excessive top cable tension to achieve the correct net height and playability. Much of that net tension is as a result of the Velcro bottom straps.

ASSEMBLY INSTRUCTIONS

- 1) Unpack unit and check to see if unit is undamaged and complete as shown on the customer drawing. Read all assembly instructions and caution labels carefully.
- 2) Unit is designed to fit a 3" diameter and 10" deep sleeve of various manufacturers'. Refer to the Double Court Layout Illustration for location of Floor Sleeves.
- 3) Uprights are heavy and it is imperative to have two persons lift and place into floor sleeve. Final configuration will have Gear Winch Assembly on each outside standard. Refer to Illustration #1.
- 4) Gear Winch Assembly (12) supplied with your PVB-300C must be assembled to your existing anchor upright of your PVB-3000 Classic Volleyball System. Refer to Illustration #2 for assembly details. (Step 1)* Clamp Gear Winch Assembly over existing Anchor Upright and assemble using 3/8"-16 X 3 1/2" Hex Head Screw (10) and 3/8" Locknut (11).
(Step 2)* Attach Leader Strap Assembly (2) to Gear Winch Assembly using Set Screw provided in Winch Shaft. The long strap on the winch assembly must first be removed.
- 5) Assemble Captive Strap Assembly (6) with 3/8"-16 X 3" Eye Bolts (1) and 3/8"-16 Eye Nuts (4) to Center Standard Upright (5). Refer to Illustration #1. Use position 'A' for official men's height and position 'B' for official women's height.
- 6) Loop extension cords (provided with end standards only). Can now be securely tied to the short winch straps now located on the two outside standards. Adjust the length of these cords depending on court width and net length.

NOTE: SEE "NET ATTACHMENT" INSTRUCTIONS
