

SOCCER GOAL WHEEL CARRIAGE INSTRUCTIONS

Step 1:

Slip axle through tube. Place wheels on axle as shown. Add washer to outside end of axle, and then put snap ring pin in at each end of axle.

Step 2:

Cut 64 inch Velcro Strap material into four 16" long pieces. Insert one end of a strap into the slots at each end

of the carriage as shown. Let approximately 2" of Velcro hang past the bracket. NOTE: Fuzzy side of Velcro should wrap against pipe backstay.

Step 3:

Position the wheel carriage assembly under backstay as shown. Wrap the Velcro straps around backstay tube. The wheel carriage assembly can be positioned anywhere along the length of the backstay tube.

Step 4:

Use two persons at the back of the goal to lift the backstay off the ground. Reposition the backstay as required. CAUTION: REMOVE THE WHEELS PRIOR TO USING THE GOALS FOR PLAY.
