

MOUNTING INSTRUCTIONS

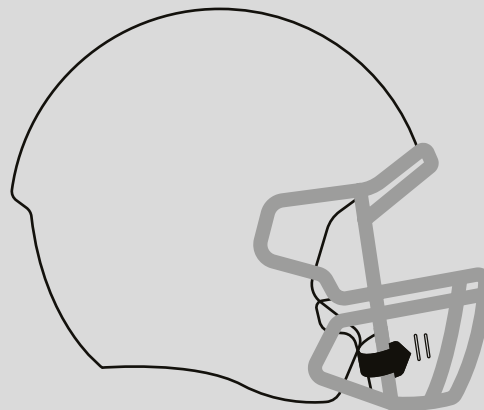

1.

1. Turn the helmet upside down and center the two holes inside the bottom bar of the facemask.

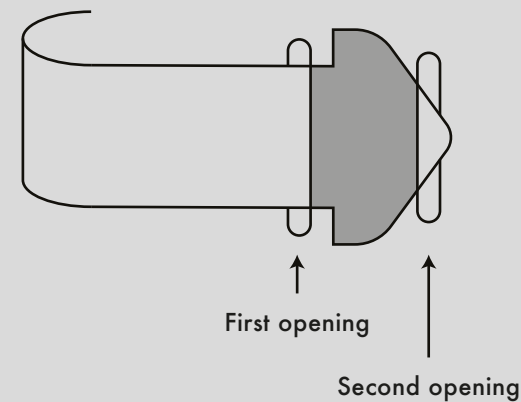

Loop the included microfiber velcro straps through the holes to secure the bottom of the shield to the bottom of the facemask. The soft side of the velcro should face out.

2.

2. Position the left and right arrow tabs behind the side bars of the facemask.

3.

3. Loop the arrow around the bar of the facemask and insert through the first opening on the sides of the shield. Then secure the arrow tab by locking it into the second opening.
