1. Place two carriage bolts (3), flatwashers (4), lockwashers (5) and hex nuts (6) loosely as shown thru the upper two holes of the backboard (and direct-mount feature if applicable).

4. Place thread protectors (7) over all four bolt ends.

MAINTENANCE INSTRUCTIONS

- * At the beginning of each season, add a small amount of silicone gel lubricant to the ball bearing latches, located on each side of the goal as indicated. This should be done while the goal is in the collapsed position. Work the goal several times and remove any excess. Second, check all mounting bolts to ensure they are torqued to the proper tightness as indicated above, in Step No. 3.

THE OWNER OF THIS EQUIPMENT MUST SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

INSTALLATION OF NET ON No. 245 ULTRA-FLEX® GOALS

1. Remove machine screw (9) in front of goal housing and carefully pull formed wire net support (8) entirely out of rim (if required).

2. As net support wire is replaced, carefully insert net loops in corresponding notches in support tube so that wire passes through the net loops.

3. Replace machine screw loop in net support wire.
