 If you have an idea for a new and innovative sports training product, visit SKLZ.com to submit your concept. Some restrictions may apply.

INSTRUCTION MANUAL

INCLUDES:
 » Lightning Bolt
 » Bolt Balls (12)
 » AC Adaptor

Thank you for choosing SKLZ Lightning Bolt. We are dedicated to providing you with the best tools and instruction possible to help you unleash your athletic potential. If there is anything else we can do to help you optimize your training, don't hesitate to send us an email (customerservice@sklz.com) or give us a call (1-877-225-7275).

BEFORE YOU BEGIN:

- » Make sure you have all of the Lightning Bolt components.
- » Read all setup and usage instructions carefully.
- » Ensure your practice area is clear and no people, animals or objects are in the path of the ball.

⚠ WARNING:

- » To avoid electrical injury, adults should always be present during use.
- » Only use Bolt Balls with the Lightning Bolt bowling machine. Failure to do so may result in a damaged machine.
- » Always operate under adult supervision.
- » Only use Lightning Bolt Balls with the Lightning Bolt. Failure to do so may result in a damaged machine.
- » Do not put hands or fingers inside the Lightning Bolt with the power cord plugged in or batteries in the unit.
- » Make sure all persons and pets are clear of the Lightning Bolt and the path of the ball before powering on.
- » Anyone hitting balls must wear a NOCSAE approved batting helmet.

⚠ CAUTION:

- » Do not power Lightning Bolt on without balls in the loader. This can damage the Lightning Bolt.
- » Only operate the Lightning Strike on level surfaces.
- » Do not allow dirt or moisture to get into the Lightning Bolt. Store indoors when not in use.

TOOLS NEEDED:

- » Screwdriver to remove battery cover.
- » 6 C batteries required (if not using AC Adaptor)

LIGHTNING BOLT

LIGHTNING BOLT IS PERFECT FOR:
 « BASEBALL » « SOFTBALL »

LIGHTNING BOLT PARTS:

A BASE

B FEEDER TUBE (4)

D TUBE CONNECTOR (3)

F TUBE CAP

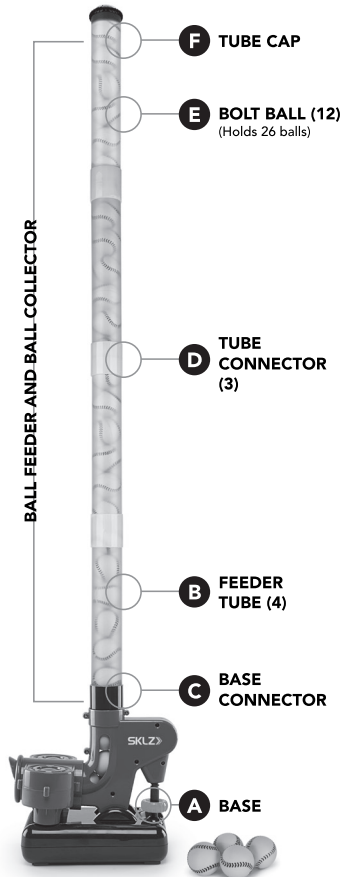

C BASE CONNECTOR

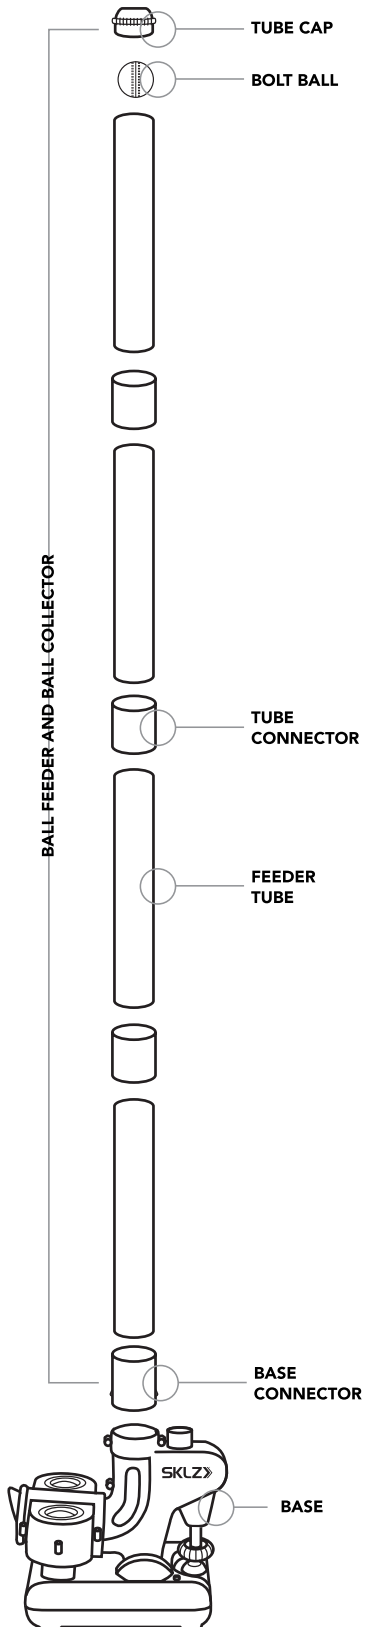

E BOLT BALL (12)

G AC ADAPTOR

LIGHTNING BOLT ASSEMBLY

STEP 1 ASSEMBLE LIGHTNING BOLT CRICKET

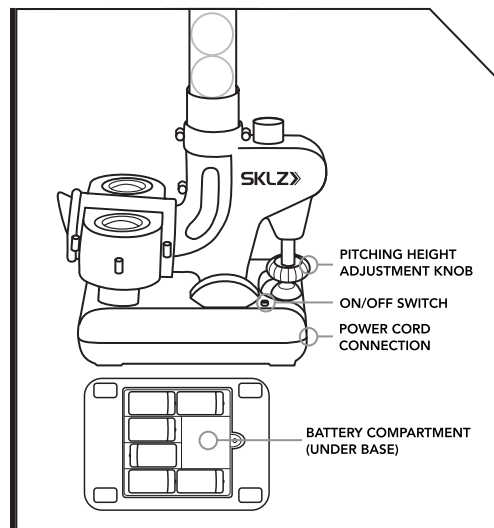

NOTE: If an electrical outlet is not available, using a screwdriver, unscrew the battery cover from the bottom of the Lightning Bolt Base and add 6 C batteries. Replace the battery cover.

1. Connect the Base Connector to one Feeder Tube.
2. Connect the remaining tubes with the Tube Connectors. Fill with Bolt Balls and add Tube Cap. Insert the assembled Ball Feeder into the Base.
3. If using AC Adapter, remove from box and insert black connector into the back of the Lightning Bolt. Plug in to the nearest outlet.

STEP 2 ADJUST LIGHTNING BOLT

1. Use the Pitching Height Adjustment Knob to adjust the Lightning Bolt to the desired trajectory. Turn the adjustment knob clockwise to lower the ball trajectory. Turn counter clockwise to heighten the trajectory.
2. Turn on machine and begin training.

NOTE: If ball trajectory needs to be changed, turn off the Lightning Bolt before making any adjustments.

COLLECT BOLT BALLS

1. Remove the Ball Feeder from the Base.
2. Place the Ball Feeder (arrow pointing down) over the ball and push down. Repeat until the feeder is full.
3. Reconnect the Ball Feeder to the Lightning Bolt and begin training.
