Assembly:

- Remove all components from the package and confirm all parts are included. Please reference the frame assembly diagram below (see figure 1).
- Spread evenly 28 S-Hook Bungees on the following tubes: 1, 2, 3, 4, 6, 7 - for the net.
- For the remaining 8 S-Hook bungees, place 2 additional ones on each of the following tubes: 1, 2, 9 & 8 - for the target.
- Place the 4 Plastic Blocks on the following tubes: 6, 7, 8, 9
- Attach all of the tubes together to assemble the frame as pictured in the assembly drawing
- Attach the net: Spread out the net and find the red tabs. Red tabs indicate the corners. Start by attaching all of the corners of the net to the frame with the bungees and then proceed with the sides of the net until all bungees are secure.

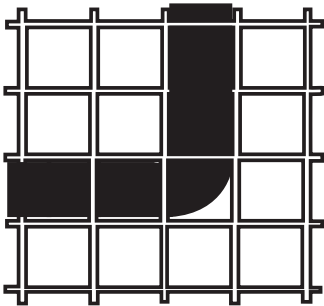

- Attach the Strike Zone Ribbon by weaving through the net and connecting the Velcro at the end (see figure 2).
- Attach the Target: On the opposite side from the net, attach the Target to the frame with 4 S-Hook Bungees on the top and 4 S-Hook Bungees on the bottom. Snap on the ball collection bag to the bottom of the Target.
- Use the Ground Stakes for extra stability when needed.

WARNING:

Use extreme caution when assembling the net to the frame. The bungees will be under extreme tension and must be attached carefully. Adult assembly is strongly recommended.
