

PSSVERVET® // INSTRUCTIONS

Our Vision

PowerNet Inc. is dedicated to providing quality products at affordable prices. Our goal is to develop the skills of the young, old, seasoned and professional athletes through training, reps and practice. Further building confidence leading to consistent winning performance.

Using PowerNet's equipment indoors and outdoors creates better players. PowerNet gives the opportunity to have the accessibility to practice anywhere with our nets and equipment. We believe that using the process of integrating practice in your daily lives allows you to mold the next generation into professionals & professionals into icons through their performance. Separating the best players from the good by providing life skills for the future.

Thank you for choosing Powernet

INSTRUCTIONS

EASY SETUP & EASY TEARDOWN

the net spread out away from you.

<mark>1b. Then set one leg down</mark> on the ground.

1a. Unwrap the net and place the 1c. Slowly telescope the legs up on double hinge on the ground with one side of the frame until it locks.

1d. Repeat steps 1a-1c on opposite side.

2. Open up middle hinge bracket of the base frame until it locks on both sides.

NOTE: Per step 1 the center is designed to be raised & curved off the ground. Don't force the middle down!

NOTE: Step 1c will extend the back base to make it a rectangle. If you do NOT extend the back base it will look like this:

3a. Lift side frame of net

until the hinge locks and place on the ground.

NOTE: All four hinges should be locked into place from steps 2 and 3.

PARTS LIST

(1) NET

(1) BASE FRAME

(4) LOWER POLES

(4) UPPER POLES

(4) GROUND STAKES

(1) BAG

TIP: Best used when weighing down net with PowerNet sandbags (not supplied).

WARNING:

- Use adult supervision and follow instructions when using and setting up the net.
- Frequent use and/or abuse will eventually strain the net and will cause breakage.
- Keep fingers away from hinges and joints.
- This is not a toy, do not climb or swing on net.
- Don't drag the net! Use two people to move.

IMPORTANT NOTE:

Near the middle hinge bracket, there are two designed bends used to raise the frame off the ground for stability. These are NOT damages!

into the back of the lower fiberglass pole. frame.

hinges meet and there pole. is no red sleeve.

4a. Insert one of the 4b. Then insert the upper lower fiberglass poles fiberglass pole into the

NOTE: The back side of 4c. Repeat steps 4a-4b the frame is where the on opposite side's back

5a. Then place the black loop around the front base post holder.

5b. Insert the upper pole into the lower fiberglass pole for the 2 remaining sets.

Slip one net sleeve over one fiberglass pole set.

5d. Next insert it into either side of the front base.

5e. Repeat 5a-5d on opposite side.

6a. Standing by the front of the net, on one side, slide sleeve up and hook the white loop on the net around the silver notch.

6b. Then repeat 6a on the opposite side with the second white front loop.

pole may snap back and cause injury.

back poles. 7b. While firmly holding the back pole and net, hook the white loop on the net around

the sliver notch.

7c. Then repeat steps 7a & 7b on the opposite side with the second white back loop

WARNING: In steps 6 & 7 don't stand in direction of the pole's load when bending. The
