

SSVBWLS2

INNOVATED LINEAR WINCH

This winch was designed to give you accuracy and assure that the net is tight and to specs. Engineered for smoother function and durability to last a lifetime.

Covered by limited lifetime warranty.

Product Features:

Tension Cable

- Stainless steel aircraft quality tension cable with no kinking or fraying over time.

Tension Gauge

- Built in tension gauge. Get the net tight and right.
- Know exact tension for subsequent set ups.
- Prevent over or under tensioning.

Steel Housing

- Powder coated steel housing for durability and precision function.
- Four sealed ball bearings for durability and smooth function.
- Cable pulleys utilize sealed ball bearings.
- Hardened steel gears last a lifetime.

Billet Gear Box

- Billet Gear Box for precision tolerances, smooth function and durability.
- Gear ratio has been adjusted for smooth function and quicker tensioning.
- Half the turns of the crank handle to get net tensioned compared to competitors winch.
- Extra tough bent plate crank handle for durability – shape prevents marring of gear box.
