## **⚠️ WARNING**

## **IMPORTANT SAFETY INSTRUCTIONS** **READ CAREFULLY**

1. Lifting and moving heavy field equipment can be dangerous if not done properly. All Kwik Goal shelters must be moved by qualified personnel who are experienced in moving large, heavy field equipment. Kwik Goal recommends storing dolly and wheels in a secured area to prevent unauthorized use.
2. A minimum of four qualified, experienced people are required to install wheels and move shelter.
3. Do not attempt to lift, move, or remove anchors from any shelter in windy conditions.
4. Shelters must not be left unattended when wheels are installed.
5. Shelter must be on level, flat ground to use dolly handle and/or wheels.
6. Dolly is to be used as a wheel transport/storage and shelter lifting device. Do not use dolly to move shelter.
7. Use extreme caution when pushing shelter. Excessive force can overturn shelter. Always push at lowest point on shelter frame possible.
8. Do not push shelter directly from the front to rear or rear to front. Push from end to end. (Refer to 9B1201 - Shelter Dolly instructions for details.)
9. Always use two people to lift shelter with dolly. With one person maintaining light pressure on the handle, the second may insert wheels into shelter. Install both wheels before resting shelter on the ground. (Refer to 9B1201 - Shelter Dolly instructions for details.)

**NEVER LOWER SHELTER WITH ONLY ONE WHEEL INSTALLED**

3. Assemble all 4 swivel tires as shown.

4. Attach tires to dolly axle assembly and secure on axle with cotter pin. Be sure that long side of hub faces in. Apply 5 "pumps" of grease to the grease fitting on each of the six tires.

6. To lift shelter, insert hook of dolly under lift U-bolt, and with two people, push handle down to ground. With one person maintaining light pressure on the handle, the second may insert tires into shelter. With flat of pin facing forward, insert pin completely into hole in underside of shelter frame and rotate swivel tire mount 1/2 turn to lock tire into place. After installing both tires, use two people to raise dolly handle and rest tires onto ground. **NEVER LOWER SHELTER WITH ONLY ONE TIRE INSTALLED.**
