## INSTALLATION, OPERATION & MAINTENANCE MANUAL

### SET OF PROTECTIVE PADS FOR JUDGE'S STANDS

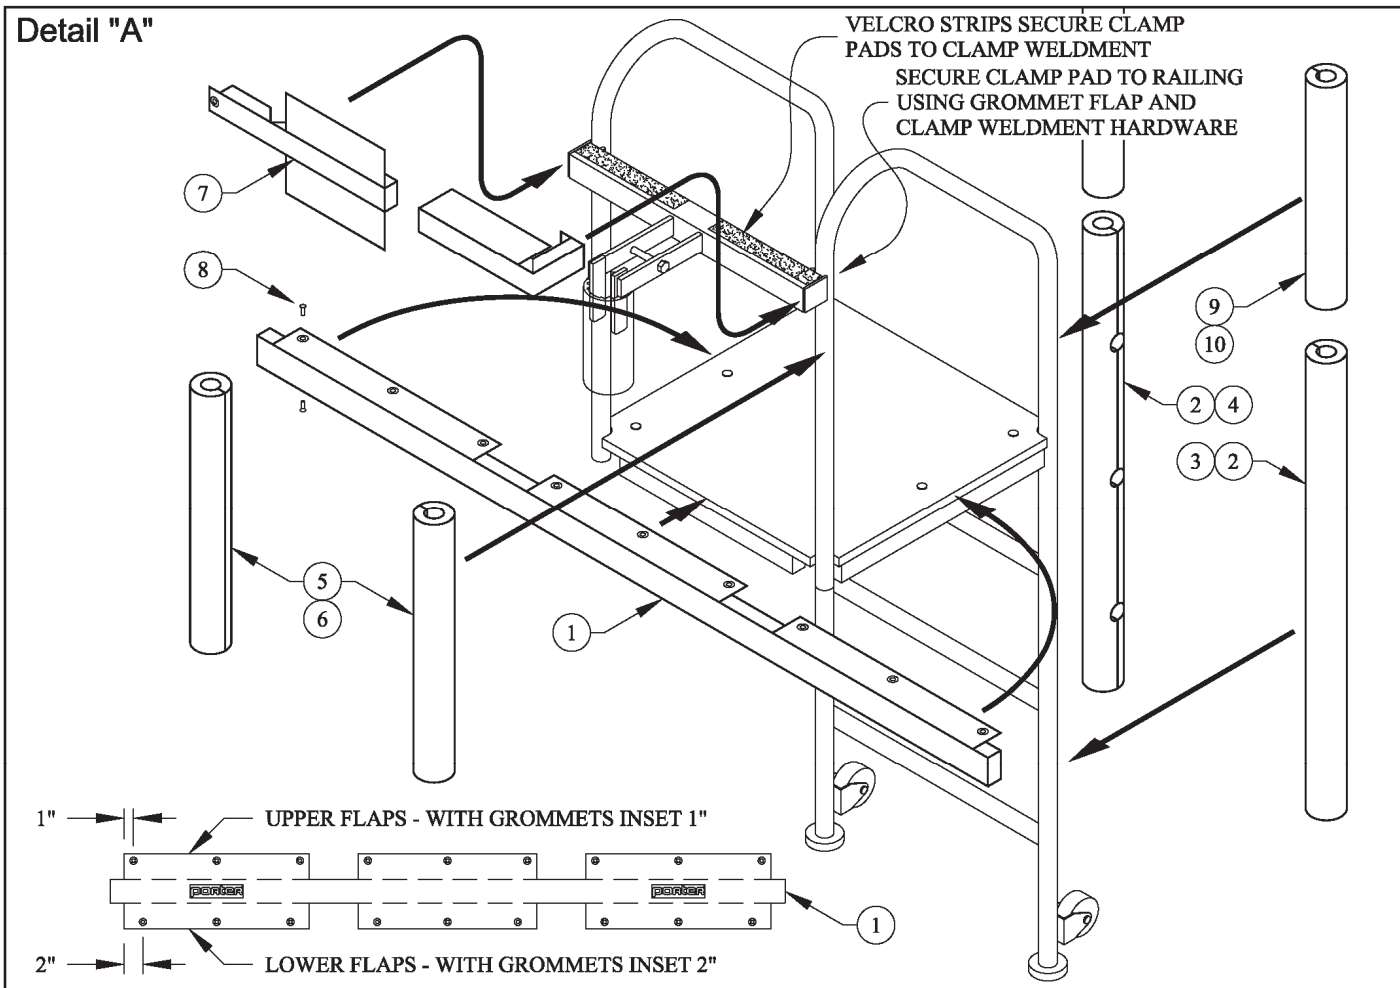

No. 9931XX

#### PARTS LIST

Item #	Qty.	Part
1	1	Platform Pad
2	2	Ladder Pad Foam
3	1	Ladder Pad Cover – Left Hand
4	1	Ladder Pad Cover – Right Hand
5	2	Front Railing Pad Foam
6	2	Front Railing Pad Cover

Item #	Qty.	Part
7	2	Clamp Pad
8	18	#12 x 3/4" Lg. Screw (HDWE060260E0)
9	2	Back Railing Pad Foam
10	2	Back Railing Pad Cover

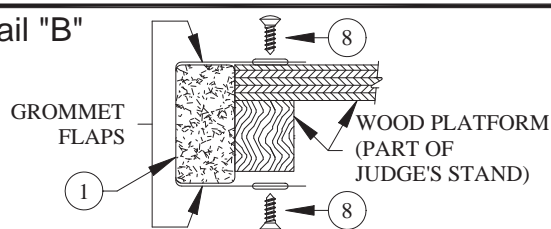

#### Detail "A"

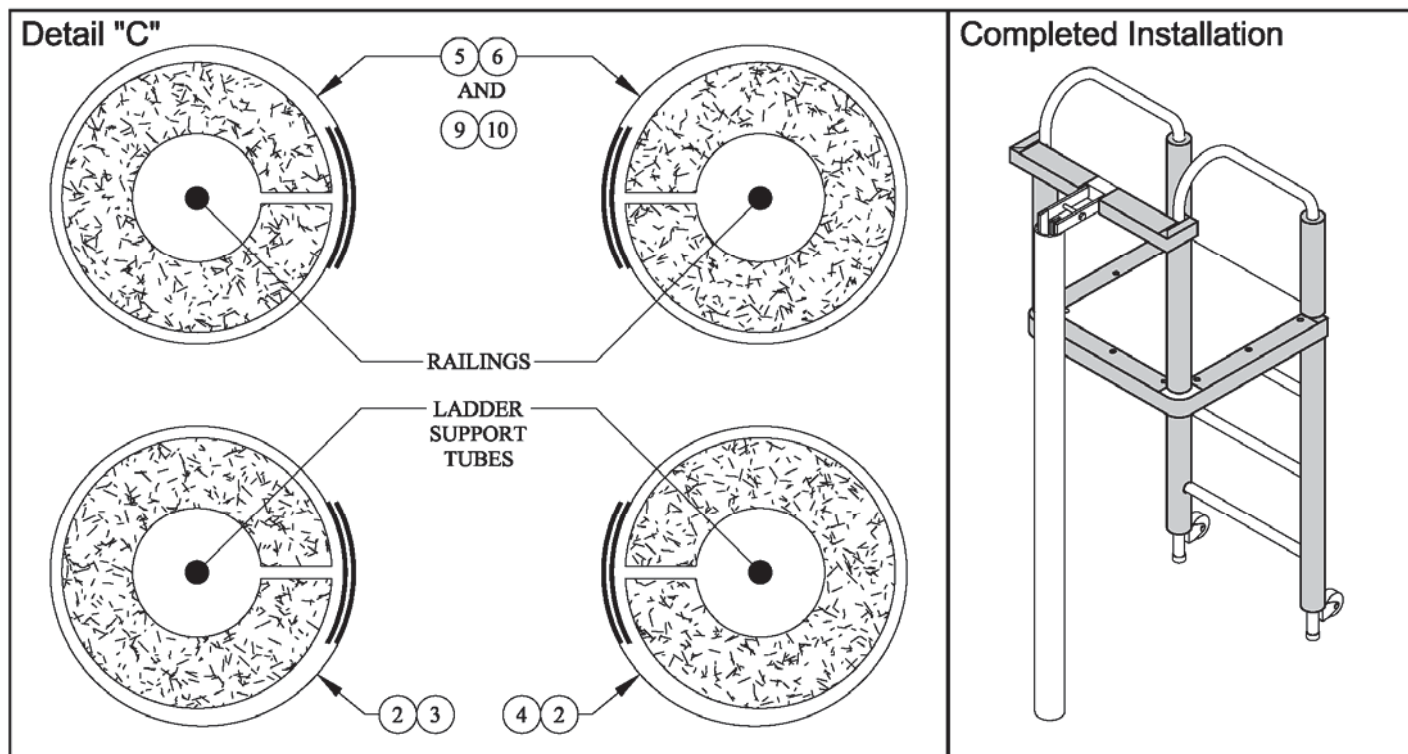

1. Check all items against Parts List to ensure all have been included.

2. Install platform pad (1) onto wood platform of judge's stand, using eighteen #12 x 3/4" lg. screws (8) thru grommets on upper and lower flaps of pad. Pilot holes in wood platform are not required. Begin with center section of platform pad, making sure it is centered left-to-right, and snug against platform. After center section is secured with six screws, attach end sections one at-a-time, by bending them 90° around the railing. Snug each end section against the platform, and secure each end section with six screws. See Details "A" and "B".

#### Detail "B"

3. NOTE – The judge's stand must NOT be installed on the volleyball post – it must be resting on the floor. Install clamp pads (7) to clamp weldment on judge's stand – one at-a-time. The clamp pads are supplied with three mounting flaps – two with peel & stick Velcro attachment strips, and one with a grommet. The grommet flap secures the pad to the railing – loosen the nuts (do not remove the screw) and put the grommet flap over the screw that secures the clamp weldment to the judge's stand. Reinstall the two nuts and tighten fully. The peel & stick Velcro strips are applied to the top and bottom of the clamp weldment. When the Velcro strips are in place, the pad can be folded around the clamp and secured top and bottom with the Velcro flaps. Repeat for the second clamp pad (7). See Detail "A".
4. Install railing pad foam (5 & 9) and railing pad cover (6 & 10) onto railings. See Details "A" and "C". Cover secures by means of overlapping Velcro attachment flaps.
5. Install ladder pad foam (2) onto ladder sides on judge's stand, both sides. Wrap left-hand ladder pad cover (3) onto left-hand ladder side. Repeat with right-hand ladder pad cover (4) on right-hand ladder side. See Details "A" and "C". Covers secure by means of overlapping Velcro attachment flaps.

6. Installation of protective pads is now complete. See illustration above for view of completed installation.

**WARNING:** This product can expose you to Vinyl Chloride, which is known to the State of California to cause cancer. For more information go to [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov).
