3. Turn board upside down (reference Kwik Goal logo) and attach tray to board. Insert tray leg into board channel.

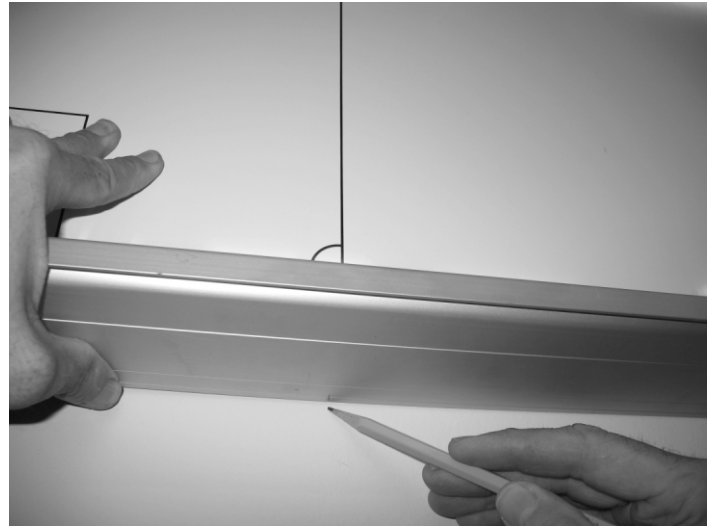

4. Slide end caps on each end to secure tray.

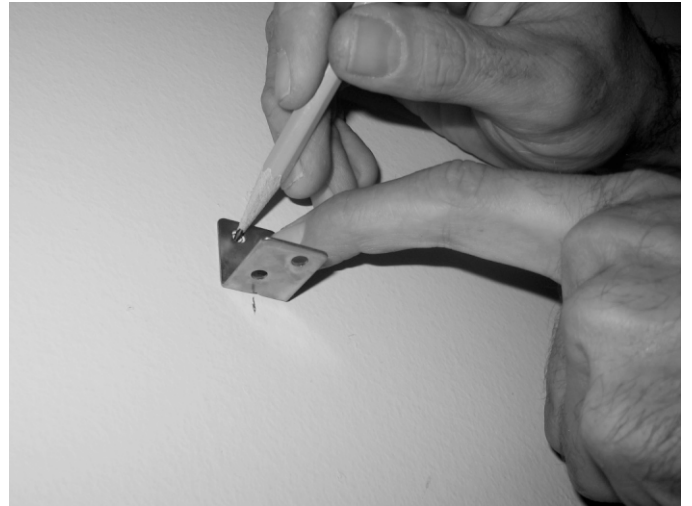

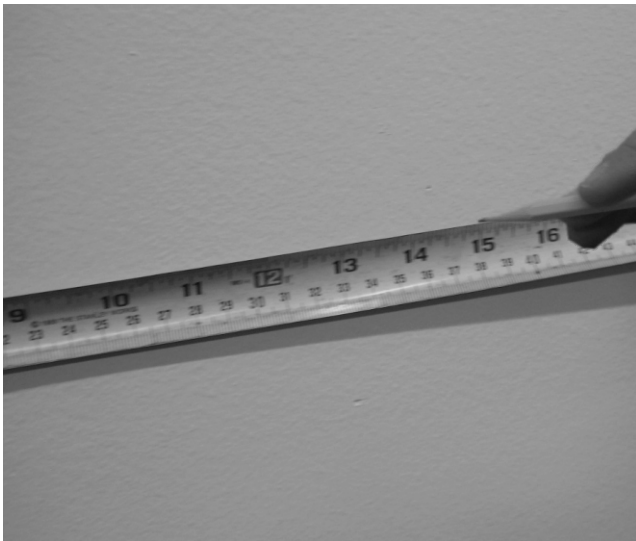

5. Make a small pencil mark on the bottom of the tray at the center of the board width.

6. Position board on wall in desired location and transfer pencil center mark from tray to wall.

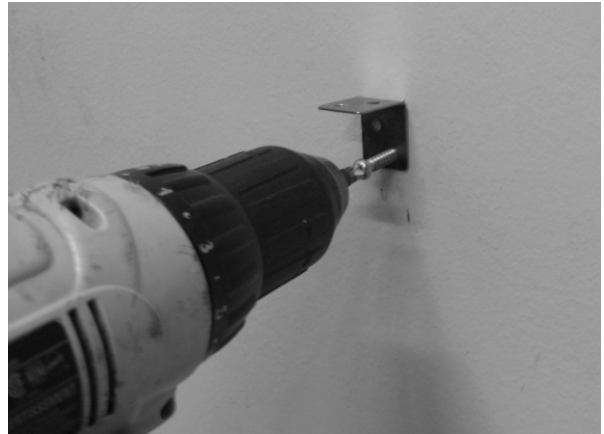

7. Measure 15" to right of wall mark and install an "L" bracket. Drill a 1/4" hole and insert wall anchor in drywall or concrete. **NOTE: If attaching to wood, drill an 1/8" pilot hole and screw directly into wood.** Be sure to use wood screw to attach bracket to wall.

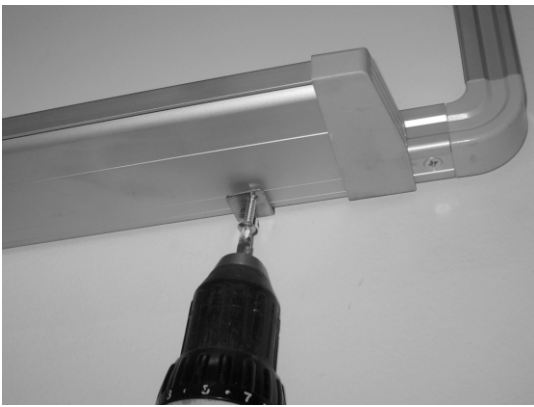

8. Mount a second "L" bracket at 15" mark to left of center. Be sure to mount left bracket level with right bracket.

9. Center board on bottom "L" brackets and mark locations for top "L" brackets; one 15" to left of center and one 15" to right of center. Remove board from wall and install both top "L" brackets.

10. Place board between top and bottom brackets and fasten board with one self-drilling screw in through each bracket and into dry erase board frame.
