

CATCHER GEAR SIZE GUIDE

MVP HELMETS + SKULL CAPS

For the most accurate sizing, it is recommended to use the players hat size, found by measuring the circumference of the players head, and then using the chart to the right to figure out the recommended model / size.

Catching helmets must fit securely for proper performance. If a player measures in between sizes, it is best to select the smaller size. Please contact our team for any questions regarding proper helmet adjustments and fitting.

CHEST PROTECTORS

All-Star® chest protectors are measured from the indent at the top of the sternum to the players navel. The chest protector should fit high, with the throat guard over the base of the neck.

If the player measures in between All-Star® chest protector lengths it is recommended to select the longer length. *The players correct measurement is more important than their age. proper helmet adjustments and fitting.*

LEG GUARDS

Best done while seated, measure from center of the players knee cap to the knot in the laces on the players cleats. If the player measures in between leg guard sizes it is recommended

to select the longer length. *The players correct measurement is more important than their age.*
