Introduction

Thank you for your purchase of a Gared Endurance Playground System. To ensure that our equipment will provide years of use to you, we are including this installation, and maintenance guide. This guide will provide information on the proper assembly and installation of your fixed playground basketball system.

Please note that a Bill of Materials is being included with this guide. Please check that all of the parts called out on the Bill of Materials are present prior to beginning assembly and setup. Please do not substitute for factory parts. Please contact the Gared Sports customer service department and allow them to determine if substitute parts are acceptable.

It is recommended that an individual who has been properly trained perform assembly and set up of the backstop. No one under the age of 18 should attempt assembly or set up of the unit, unless properly supervised.

To prevent normal wear and tear from shortening the life of the unit, preventative maintenance inspections and repairs should be performed at least once per year. If the units are subject to high or unusual usage, inspections should be scheduled to occur more frequently. If items are found to be nonconforming, replacements can be ordered from Gared Sports or one of our authorized dealers. When contacting Gared Sports, please have information regarding the dealer/installer who sold the unit, the name of the project, and any applicable warranty information.

Read and understand the following warnings to prevent possible personal injury and potential damage to the equipment during assembly, setup, and operation.

DANGER

DO NOT CLIMB ON GOAL,
BACKBOARD OR BACKSTOP.

THIS UNIT IS DESIGNED FOR A SPECIFIC
OPERATING WEIGHT AND THE ADDED
WEIGHT COULD CAUSE DAMAGE AND/OR
SERIOUS INJURY TO PERSONNEL.

2036-31-00

Before proceeding with assembly, read all instructions and assembly procedures. Make sure all parts have been received and are not damaged.

Parts Checklist

Verify all parts listed on packing list are present prior to installation.

BASIC SETS INCLUDE

6" x 6" Square Steel Post: Galvanized or Black powder coat finish.

Extension Arms: 3-lengths available.

2-Braces: See Backboard and Brace Chart on page 5

Backboards: 8-backboard choices available.

Goal with net and mounting hardware.

INSTALLATION INSTRUCTIONS

Use the step by step instructions on the following pages for successful and safe installation.

STEP 1: Post hole location.

Begin the installation process by locating the hole for the vertical post in relation to the existing court (if there is one). Use the following illustration as a guide to locate the post hole for the extension length you will be using. This distance will be different for each of the three goal extension arms.

REV

B

STEP 2: Dig and prepare hole for main post.

Use the following illustration to dig the hole for the main post. Place 6" of #57 crushed stone (lightly compacted) in the bottom of the hole as preliminary bottom foundation on which to set and stabilize the post in preparation for adding the final concrete. The crushed stone will also provide drainage for the post.

STEP 3: Position the main post.

Carefully lower the main post into the hole. Center it within the hole. Snugly attach the extension arm with two U-bolts. This will help with the alignment of the whole unit. See next page for more details on stabilizing and positioning the post. Hinge plate can also be added at this time.

PART NO.

401754712

REV

B

STEP 4: Stabilize the main post.

Stabilize the post as shown in the illustration below.

STEP 5: Cast the concrete.

Cast the rest of the concrete making sure not to move the post. Let the concrete cure for 72 hours before completing the rest of the installation.

------	-----------	----------	---------	----------	-----------	-----	---

STEP 6: Raise the extension arm.

After the concrete has fully cured, loosen the two U-bolts and carefully slide the extension arm up the post to the desired height. Note, the height shown in the illustration will result in a standard 10 foot rim height. Add the remaining two U-bolts and tighten all securely. Add end cap at this time.

Note:

Dimension shown may require some minor adjustment
after backboard and goal are installed for exact 10' goal height.
