

ASSEMBLY INSTRUCTIONS FOR JZ290 BLEACHER PLANK CAPS

1. Unpack all parts and check for damage that may have occurred during shipping. If damage has occurred, notify Kwik Goal immediately. Lay out all parts. Remove all cardboard and packaging immediately. Wet or damp packaging may damage contents.

Parts

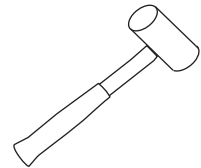

Bleacher Plank Cap (2)
(Part# VZ912)

Plastic Rivet (6)
(Part# JZ293)

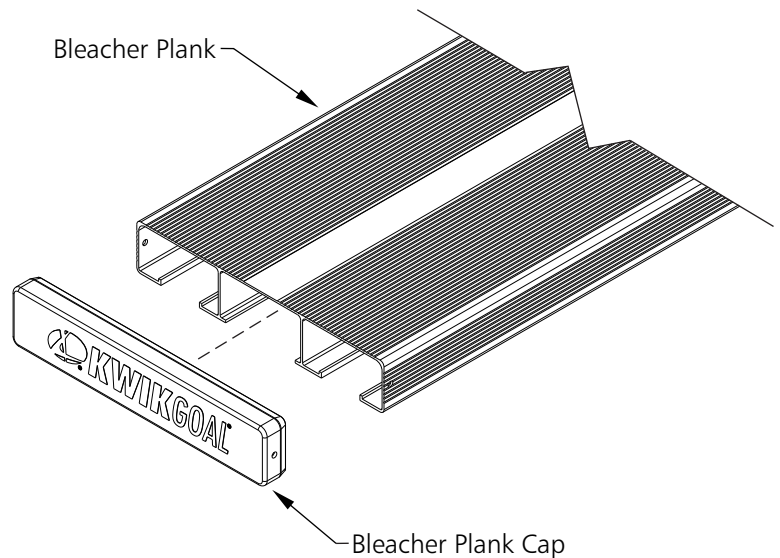

Tools Needed

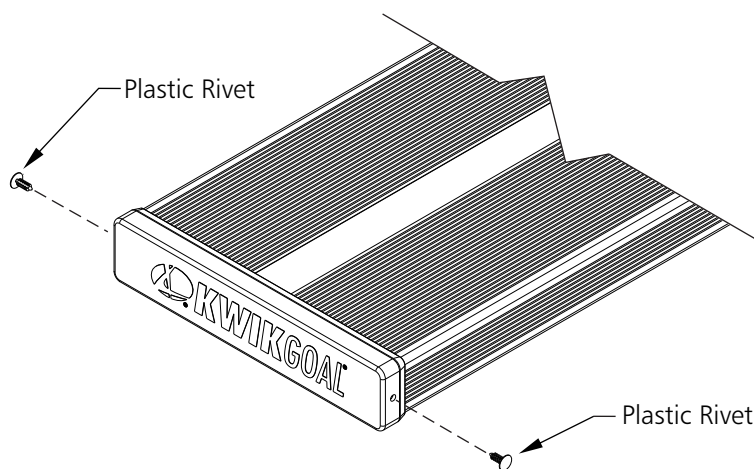

Rubber Mallet

2. Read through entire instruction before beginning assembly and installation.

3. Install bleacher plank cap as shown to the right. With the Kwik Goal logo oriented right side up, ensure that the holes on each end of the cap approximately line up with the holes on the bleacher. If necessary, use a rubber mallet to lightly seat the bleacher plank cap into position.

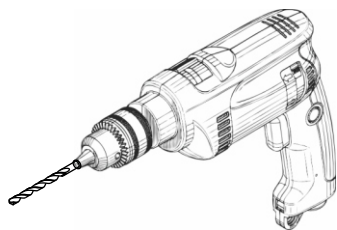

4. Insert a plastic rivet into each of the holes. Ensure that they are fully inserted. If necessary, use a rubber mallet to lightly seat the plastic rivets into position.

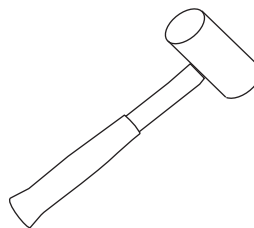

5. For replacing old aluminum caps continue to step 6.

6. The following steps are only for bleacher planks that do not already have holes for attaching the bleacher plank end caps.

Tools Needed

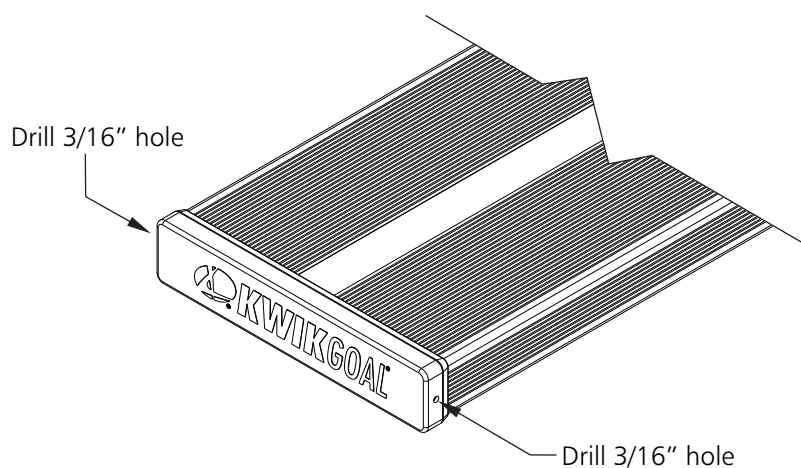

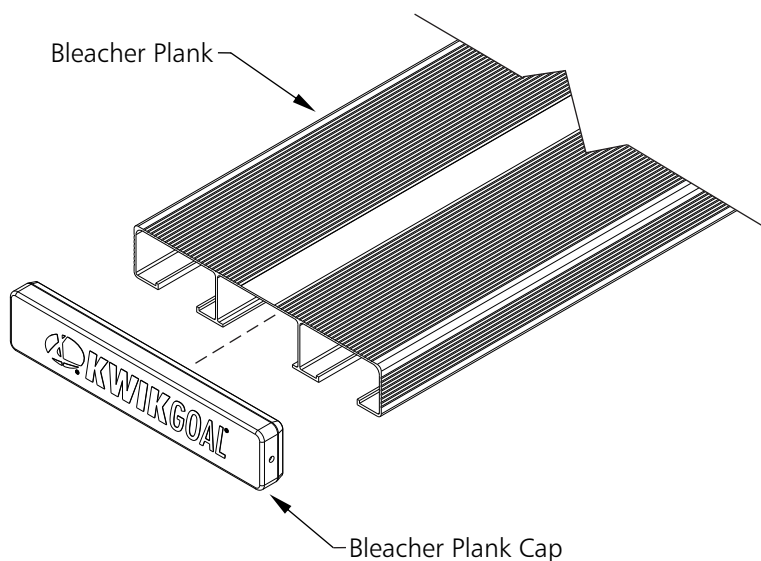

Electric or Cordless
Drill with 3/16" Drill Bit

Rubber Mallet

7. If applicable, remove any existing bleacher plank caps.

8. Install bleacher plank cap as shown to the right. With the Kwik Goal logo oriented right side up, ensure that the cap is fully seated onto the bleacher. A rubber mallet may be used to lightly seat the bleacher plank cap into position.

9. Using the holes on each end of the bleacher plank cap as a guide, drill a 3/16" hole into both sides of the bleacher.

10. Once all holes have been drilled return to step 4 for plastic rivet installation instructions.
