YOUR PRACTICE REVOLUTION

The Rogers PowerLine sled will reward your players' effort and dedication with game-winning proficiency. The PowerLine Sled allows you to vary the pad angle, pad height, and number of stations.

HIT. EXPLODE UP. FOLLOW THROUGH.

Teach players how to transfer the power of the legs through the hips and into the upper body. Proper fit-extension-finish skills are naturally perfected with regular PowerLine drills. Snapping the hips and bringing the feet become second nature.

POWERLINE FACTS

- Adjust the pad's height and angle to put player in good football position.
- Angle of pads promotes fit – extension – finish, and keeps player low.
- Run through sled for pass-rush drills and swim moves.

POWER. SKILL. VICTORY.

POWERLINE SLED™ FEATURES

PAD-ANGLE ADJUSTMENT

Choose one of three resting angles so the pad can best suit your drills. Lower the pad angle to practice goal-line situations. Raise the pad if you have larger players.

BAKED-ON FINISH

Baked-on powder-coated finish extends the life of your Sled.

PAD-HEIGHT ADJUSTMENT

Pad is held securely in place at your choice of two heights. A pin makes it easy to install, change, and remove to store the pad.

FLAT TUBULAR RUNNERS

Heavy-wall runner offers realistic resistance when Sled is driven. Flat runners minimize artificial turf wear.

LINK SYSTEM

Connection link frame gives you options for drill stations during practice. You can also add additional stations later.

ENERGY ABSORBING SPRING

High-tech energy-absorbing material responds to individual effort. Springs are encased in metal for added safety.

ROGERS SLED LINK SYSTEM

Each practice session, the Rogers Powerline Sled™ allows you a choice of drill formations. It's like having three sleds in one! For example, the 7-man converts into a 5-man and a 2-man Sled. Simply rearrange back as a 7-man for full offensive-line drills. Simply remove the link tube that connects the stations you want to separate. Make the change using two wrenches.

Keep your purchase within budget — purchase a smaller sled now and add more stations later.

Vary drill routines by easily converting a 7-man into a 5-man and 2-man sled.

POWERLINE SLED™ DUMMIES

All Rogers products are designed and built to last. Even our sled pads come with a 3 year warranty.

1 Inner Steel Frame

- ★ A strong steel frame keeps our sled pads in top form, season after season.
- ★ Other pads tend to twist on their springs after heavy corner hits – our inner frame provides unmatched stability.
- ★ No sled spring can wear through the pad.

2 Molded Foam

- ★ Molded around the frame is a one-piece urethane foam core reinforced by a nylon mesh.
- ★ The pad holds its shape and absorbs energy better, lasts longer and is safer than cut foam.

3 Vinyl Cover

- ★ A tough, 18-ounce vinyl-coated nylon cover forms the outer skin.
- ★ Each pad sports a number and (on most) a helmet figure, giving your players a well-defined target.

4 Single Pin Attachment

- ★ Each pad fastens to the sled with a single pin, preventing the pad from sliding up when hit.
- ★ With the simple pin system, setting up, changing pads for different drills, and removing pads for daily storage take little time and effort.

Choose the sled pad that simulates your favorite drills or buy several models and interchange them. One set of pads are included in the price of a new sled.

Big Bruiser Pad

HEIGHT 51" ★ WIDTH 20" ★ DEPTH 11"

● YELLOW ● ORANGE ● RED ● PURPLE
● BLUE ● GREEN ● NAVY ● BLACK

- ★ High School Coach favorite
- ★ Tapered style for all blocks, lock-out, base-block, shoulder an cut-block
- ★ Can be inverted on Mod Sled for defensive drills

D-Pad

HEIGHT 48" ★ WIDTH 14" ★ DEPTH 14"

● RED ● BLUE

- ★ Cylinder shape for working on tackling form – staying low, hit, wrap-up and bring the feet
- ★ Great for rip and swim moves
- ★ Narrow for striking tight with hands inside

Tall T

HEIGHT 41" ★ WIDTH 20" ★ DEPTH 14"

● RED ● BLUE ● GREEN

- ★ Offensive – drill hands inside, shoulder and forearm lift
- ★ Defensively – work striking and locking-out, keep separation, react to ball carries
- ★ Fits PowerLine Sled only

Short T

HEIGHT 28" ★ WIDTH 20" ★ DEPTH 14"

● RED ● ORANGE ● BLACK

- ★ Work on shooting the hands low to keep opponents out of your legs in shuffle drills
- ★ Great for offensive line of Double Tight and Wing-T teams
- ★ Fits PowerLine Sled only

Shock Pad

HEIGHT 39" ★ WIDTH 21" ★ DEPTH 9"

● YELLOW ● ORANGE ● RED ● PURPLE
● BLUE ● GREEN ● NAVY ● BLACK

- ★ Has a narrow Torso
- ★ Shape helps teach the D-line to "Shock" O linemen with a punch with the heel of their hands then practice accelerating to the ball carrier
