

SPALDING SPECIFICATIONS

DATE: 4/28/10

MODEL NUMBER: 411770

DESCRIPTION: 960 Portable Backstop

SPECIFICATIONS:

Designed for institutional use at high schools, camps, churches or health clubs.

Base is made of a powder coated 14ga. sheet metal with 2 heavy duty swivel casters on the front and 4 heavy duty fixed wheels on the rear. The base has a compartment on each side for the recommended 300~350 pounds of ballast required.

Uprights are made of 1/8" thick structural steel tubing and powder coated for long life.

Backboard is made of an acrylic board with an aluminum frame around the perimeter to help make the backboard stiff for play. Two backboard braces are also used that attach from the backboard to the extension arm for extra stiffness.

Lifting and lowering the rim height is assisted by an internal spring inside the uprights.

The front is padded with 1-1/2" thick padding covered with 14ga. black vinyl to protect players.

Extension arm is made of a powder coated 1/8" thick structural steel that has a four foot offset at ten feet.

Portable comes completely powder coated white with black padding.

WARRANTY:

Two-year limited warranty
